Contents

No. 1

Cefixime
I. Genvresse and C. Carbon 1

Clostridium difficile-associated diarrhea and colitis: pathogenesis and therapy
C. Pothoulakis, I. Castagliuolo, C.P. Kelly and J.T. LaMont 17

Diarrhea in intensive care: diagnosis and treatment
G. Bleichner, O. Thomas and J.P. Sollet 33

Controversies on pharmacokinetics of fluoroquinolones in elderly patients
E. Ludwig 49

Inhibition of two imidazole antimycotics, eberconazole and clotrimazole, by different components of *Candida albicans* serotype B membrane protoplasts
J.M. Tomás, S. Camprubí, S. Merino, R. Parés, X. Llauradó and J. Julve 61

Penetration of carumonam into the pleural fluid: comparison of intravenous bolus and constant infusion in rats with experimentally induced pleurisy
P.A. Miglioli, E. Ragazzi, M. Perani, C. Wool and P. Palatini 65

Calendar 71

No. 2

Interactions between antimicrobial drugs and phagocytes: an overview
M.T. Labro 73

Ecological means of control of diarrhea
C.M. Surawicz 89

Current approach to the treatment of travellers' diarrhoea
E.G. Obot and H.L. DuPont 97

Activity of cefixime against *Helicobacter pylori*
M.T. Fera, M. Carbone and A. Focà 105

Selective decontamination of the digestive tract for the prevention of infection
J. Verhoef 109

New treatment modalities for serious Gram-negative bacterial infections
J. Verhoef 115

The activity 'in vitro' of trospectomycin against high-level antibiotic-resistant enterococci
M. Venditti, A. Tarasi, P. Baiocchi, V. Lamonaca and G.P. Testore 123

Lomefloxacin compared with trimethoprim for the treatment of women with cystitis
R.R. Bailey, A.H. Smith, B.A. Peddie and General Practitioners 129

Medical management of neurocysticercosis
O.H. Del Brutto 133

Clinical trials of antibiotics: need for better investigators
S.R. Norrby 139

Calendar 145

No. 3

Fluconazole (Diflucan®): a review
M. Zervos and F. Meunier 147

Effect of fluconazole on the interactions between human neutrophils and *Candida albicans*
A.M. Sugar and J. Tjia 171

Preclinical studies with platelet-activating factor antagonists in models of septic shock
S.Q. DeJoy, A.L. Oronsky, M.M. Wick and S.S. Kerwar 175

Strategies for the treatment and prevention of cytomegalovirus infections
J. Neyts and E. De Clercq 187

In vitro activities of two drug combinations of ceftazidime, cefotaxime, cefuroxime, ciprofloxacin, chloramphenicol, imipenem and temocillin against clinical isolates of *Pseudomonas cepacia* from patients with cystic fibrosis
J.R. Kerr 205

Antimicrobial resistance patterns in Korea
Y. Chong, K. Lee and O.H. Kwon 211

Antibiotics may predispose to lactobacillemia in liver transplant patients
R. Patel, F.R. Cockerill, M.K. Porayko and M.R. Keating 215

Calendar 221

No. 4

Biological response modifiers and infectious diseases: Actual and potential therapeutic agents
J.J. Rusthoven 223

Current infectious complications and their management in acute leukemia and bone marrow transplantation
J.P. Donnelly and B.E. De Pauw 245

Lyme borreliosis
B.J. Luft, E.M. Bosler and R.J. Dattwyler 251

β-Lactam resistance in aerobic commensal faecal flora
P.M.A. Shanahan, C.J. Thomson and S.G.B. Amyes 259

Comparison of Chinese and Western rifapentines and improvement of bioavailability by prior taking of various meals
S.L. Chan, W.W. Yew, J.H.D. Porter, K.P.W.J. McAdam, B.W. Allen, J.M. Dickinson, G.A. Ellard and D.A. Mitchison 267

Serum HIV-1 p24 levels and body weight measurements before and after 4 weeks of diethylcarbamazine treatment given to HIV-1 seropositive persons
E.G. Arathoon, C.R. Mejía, R.M. Estrada y Martín, J.E. Hernández, G.J. Turner and L.W. Kitchen 275

Calendar 279
